

BioRegenerate™

BioRegenerate is the most complete and advanced tool for managing all types of crop residue. It delivers enhanced residue breakdown powered by a natural team of residue digesting microorganisms. This all-in-one residue management product combines viable and capable microbes with organic acids to degrade crop residue and complex organic compounds. This enhanced biological breakdown allows drills and planters to slice through residue instead of bouncing over it; reduces hair pinning, promotes optimal seed placement, faster soil warm-up in the spring, uniform emergence and an optimized stand. **BioRegenerate** enhances the return of micro and macro nutrients from the residue to the soil and can help drive CO₂ cycling, promote higher yields and healthier soil. Apply **BioRegenerate** to reclaim your investment dollars currently tied up by crop residue in your fields.

INGREDIENTS:

| Active Ingredients | Percent |
|------------------------------|-----------------|
| Mixture of microbial strains | 5.35% (nominal) |
| Other Ingredients: | |
| Organic Acid | .026% |
| Water | 94.39% |
| Total | 100% |

SUGGESTED APPLICATION: **BioRegenerate** can be applied to all types of crop residue. For best results, shake before using since settling can occur. If combining with other products avoid having them mixed together for extended periods of time. Some chemicals can be detrimental to the microbes. If mixing with other products, it is best to mix shortly before the application (just in time). Perform a jar test to ensure compatibility.

Crop Residue: Apply **BioRegenerate** at 32 ounces/acre broadcast to crop residue one time in fall or early spring. To enhance performance, apply with Eubio-NBS (c10) at 10 oz per acre. If mixing **BioRegenerate** with 10 oz/A of Eubio-NBS (c10), the **BioRegenerate** rate can be reduced to 24 oz/A. Eubio-NBS (c10) is a natural biological stimulant that can enhance the microbial crop residue digestion process. Applications with Pacific Gro (2.0-1.0-0.3) fish fertilizer, with high oils and protein and/or Biolmpact (Chitosan), will enhance the fungal digestion of crop residue. Apply in 10 to 15 gallons water per acre.

IMPORTANT NOTICE TO PURCHASER:

Seller's and manufacturer's only obligation to a purchaser or user of this product shall be to refund the purchase price or to replace the quantity purchased of any defective product. In no event shall seller or manufacturer be liable to a purchaser or user of this product for any claim for any economic, indirect, special, incidental or consequential damages, or for any injury, loss or damage, direct or indirect, to any person or property. Purchaser of this product expressly acknowledges and agrees to these terms.

CAUTION FOR HUMAN CONTACT:

May cause skin and eye irritation. Avoid contact with skin, eyes, and clothing. Avoid breathing spray mist.

IF ON SKIN: Immediately flush skin with plenty of soap and water while removing contaminated shoes and clothing. Wash clothing before re-use. Destroy contaminated shoes. Seek medical attention.

IF IN EYES: Get medical attention immediately.

Do not allow victim to rub or keep eyes closed. Extensive irrigation with water is required (at least 30 minutes). **IF INHALED:** Get medical attention immediately. Remove to fresh air. If not breathing, give artificial respiration. Give oxygen if difficulty breathing. **IF SWALLOWED:** Do not induce vomiting. If the victim is conscious and alert, give 1 - 2 pints of milk or water. Never give anything by mouth to an unconscious person. Get medical attention immediately.
