ProfitCoat™ NB ProfitCoat™ NB+OSI

Organic Seed Nutrient and Biological Inoculants

GENERAL INFORMATION:

ProfitCoat NB is a liquid organic coating that promotes improved consistency and uniformity of stand, increased seedling vigor, enhanced root health and standability throughout the growing season. It contains beneficial microorganisms that will colonize the germinating seedling root and boost the biology in the rhizosphere. The consortium of beneficial bacteria and fungi fix nitrogen, improve availability and solubility of plant nutrients in addition to enhancing the plant's health. The coating contains a seed lubricant and up to 75 trace elements to support the microbes and seedling during initial stages of growth. **ProfitCoat + NB** is a "seedling and season-long plant health enhancement system."

ProfitCoat NB + OSI is a unique organic soybean inoculant (OSI) seed treatment that contains a proprietary blend of strains of yield-enhancing Bradyrhizobia bacteria which can be added to ProfitCoat NB for soybeans.

INGREDIENTS:

Contains beneficial plant microbes (including mycorrhizae), micronized natural organic ores, organic nutrients, plant nutrient solubilizer, a microbial stimulant and seed lubricant.

DIRECTIONS FOR USE:

ProfitCoat + NB is recommended for use on all plant seeds. It can be applied up to four months ahead of planting. It is recommended to apply **ProfitCoat + NB** with a commercial treater or a qualified liquid applicator system that will achieve uniform coverage.

ProfitCoat + NB comes in liquid and dry portions to be mixed together for application to the seed. Once the liquid and dry portions are mixed, apply within eight hours. Premix only what can be applied in one day. Apply the final liquid mixture and dry the seed as quickly as possible.

Apply the following fluid ounces of **ProfitCoat + NB** final mixture per 100 lbs of seed:

- Corn at 8.0 oz (80 K unit)
- Soybeans at 4.0 oz
- Grasses at 8.0 oz
- Alfalfa/Legumes at 8.0 oz
- Small Grain at 4.0 oz
- Cover/other crops at 8.0 oz

Soybean Inoculant: Organic soybean inoculant (OSI) can be applied in combination with **ProfitCoat + NB** and applied as a liquid coating.

STORAGE AND HANDLING:

Keep product dry. Store out of direct sunlight.
Store below 90° F.

On-seed delivery system to enhance plant health.

ProfitCoat NB contains
NO Genetically Modified Organisms (GMOs).

**KEEP OUT OF REACH
OF CHILDREN AND ANIMALS**

Made in the U.S.A.

ProfitCoat NB and ProfitCoat NB+OSI are made with organic compliant materials and can be approved by organic certifying agencies for USDA-NOP programs. As with any organic crop input, growers must contact their organic certifier and get pre-approval of any seed coating additive to be used in their organic cropping system. Because of differences among the various certifying agencies and differences between NOP/EU/JAS/COR ingredient lists, we cannot guarantee that our products will be allowed by your certifier on your farm.
