

BiolImpact+™

A natural adjuvant spray

BiolImpact+™ is a unique synergistic blend of principal functioning agents featuring the combined properties of a superior agricultural spreader and sticker. It enhances the activity and performance of foliar nutrients. With foliar applications, the superior wetting of **BiolImpact+™** results in a more uniform distribution of material which increases the retention and absorption of sprays by reducing surface tension of the spray droplets.

BiolImpact+™ when applied to seed creates a semipermeable film that helps maintain the seed moisture and absorb the soil moisture, and thus it can promote seed germination.

PRINCIPAL FUNCTIONING AGENTS:	(% by weight)
Poly-D-Glucosamine & Saponin containing plant extracts	6%
Organic Acid(s)	2%
Constituents ineffective as spray adjuvants	92%
Total	100%

*** Non-Plant Food Product ***

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180.

DIRECTIONS FOR USE:

For use as an adjuvant with nutritional sprays for agricultural, ornamental, vegetable, fruit and turf. Not intended for aquatic applications.

BiolImpact+™ may be applied by ground, aerial equipment or through irrigation. For most applications, use sufficient **BiolImpact+™** to provide uniform application of spray onto leaf surfaces.

GROUND, AERIAL OR IRRIGATION: For ground or aerial application to row crops, commercial vegetables, fruit trees, ornamentals or turf: Use 1 to 2 quarts **BiolImpact+™** in minimum of 20 gallons of spray solution. For irrigation, use 1 quart per acre.

SEED COATING ADJUVANT: Apply at 2 oz per cwt as a seed coating.

DRONE APPLICATION: Apply **BiolImpact+™** at 1 qt with enough water to achieve adequate coverage.

BioEnergy+™ can be applied at 1 qt/A with BiolImpact+™ to provide an energy & nutritional boost to the crop.

NOTE: The above recommended rates are considered adequate for adjuvant use with most nutritional sprays. Some products may require higher or lower rates. In all cases, follow the nutritional spray label directions.

MIXING: Follow manufacturer's guidelines for cleaning spray equipment prior to mixing. Fill spray tank with water and add all other spray ingredients according to product labels. Buffer pH 5.0 or below before adding **BiolImpact+™** (ex. Vinegar or Citric Acid, etc.). Thoroughly mix to resuspend any sediment before using this product. Add **BiolImpact+™** last and mix completely to fully incorporate with the other ingredients. It is always recommended a compatibility be performed on all first time combinations. (Excessive agitation may lead to foaming of spray solution).

STORAGE: Do not contaminate water, food or feed by storage or disposal. Store in original containers only in cool areas at 40 - 80 ° F. Keep away from incompatible substances. Keep away from metals. Do not store in metal containers.

PRECAUTIONARY STATEMENTS; BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS FOR USE, CONDITIONS OF SALE, LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES.

IMPORTANT NOTICE TO PURCHASER:

Seller's and manufacturer's only obligation to a purchaser or user of this product shall be to refund the purchase price or to replace the quantity purchased of any defective product. In no event shall seller or manufacturer be liable to a purchaser or user of this product for any claim for any economic, indirect, special, incidental or consequential damages, or for any injury, loss or damage, direct or indirect, to any person or property. Purchaser of this product expressly acknowledges and agrees to these terms.

CAUTION FOR HUMAN CONTACT:

May cause skin and eye irritation. Avoid contact with skin, eyes, and clothing. Avoid breathing spray mist.

IF ON SKIN: Immediately flush skin with plenty of soap and water while removing contaminated shoes and clothing. Wash clothing before reuse. Destroy contaminated shoes. Seek medical attention.

IF IN EYES: Get medical attention immediately. Do not allow victim to rub or keep eyes closed. Extensive irrigation with water is required (at least 30 minutes). **IF INHALED:** Get medical attention immediately. Remove to fresh air. If not breathing, give artificial respiration. Give oxygen if difficulty breathing. **IF SWALLOWED:** Do not induce vomiting. If the victim is conscious and alert, give 1 - 2 pints of milk or water. Never give anything by mouth to an unconscious person. Get medical attention immediately.
